

# Meta Quest Pro

Our most powerful VR headset. Discover truly immersive teamwork with increased comfort, high definition mixed-reality passthrough and more natural facial expressions.

## Premium Comfort

World class counter balanced ergonomics meets sleek design to create a more comfortable headset.

**Flexible levels of Immersion** Accommodated IPD Range: 55 - 75 mm, with continuous IPD adjustment for better visual clarity and less eye strain. From fully open peripheral vision, to partial blocked (included) or fully immersed (accessory) VR immersiveness is no longer a one size fits all.

## More Natural Avatar Expressions

Bring your personality to VR with avatars that mimic your natural facial expressions, so you can be fully present in meetings.

## Multi-tasking Made Easy

Pop open multiple resizable screens, work on new ideas, stream your feeds, or message with your team. With this new superpower, multitasking has never been easier.

## Next Generation Optics

You'll immediately notice better visual clarity. We slimmed down the optical stack by over 40% compared to Quest 2 using our innovative patented pancake lens and optics technology, which works by folding light inside the optical module. Advanced VR LCD display technology that provides 37% greater pixels-per-inch. And 1.3x larger colour gamut that provides more vibrant colours to deliver a more engaging VR experience.

## Backwards Compatibility

Take full control of your favourite apps. Access the Meta Quest 2 app catalogue to enjoy your favourite apps.

## High Performance Hardware

10 advanced VR/MR sensors, spatial audio, 256GB storage, 12GB RAM, and a Snapdragon XR2+ processor that delivers 50% more power for better performance.

## Transformative Mixed Reality

Full-colour mixed reality, with resolution 4X higher compared to Quest 2, lets you work, create and collaborate in the virtual world while staying present in the physical world.

## Comes with Charging Dock

A companion charging dock, with rapid USB-C power adapter, keeps your headset and controllers charged so when creativity strikes, you'll be ready to bring your ideas to life.

### Meta Quest Touch Pro Controllers

Includes 3 cameras and a Snapdragon 662 mobile processor per controller, for 360-degree range of motion in your virtual space. TruTouch haptic feedback, and precision pinch create a more intuitive VR feel.

## Meta Quest Pro and Meta Quest Touch Pro Controllers Tech Specs

<b>Product Dimensions</b>	265mm (L) x 127mm (H) x 196mm (W)			
<b>Computer</b>	Snapdragon XR2+	<b>RAM</b> 12GB	<b>Storage</b> 256GB	<b>WiFi and Bluetooth</b> <ul style="list-style-type: none"> <li>• WiFi 6E enabled</li> <li>• Bluetooth 5.2</li> <li>Not enabled for audio</li> </ul>
<b>Display</b>	<b>Panel</b> 2 x LCD panels with local dimming backlight and Quantum Dot technology	<b>Resolution</b> 1800x1920 pixels per eye	<b>Refresh</b> 90Hz max, 72Hz also supported	
<b>Optics</b>	<b>Pancake lens and optics technology</b>	<b>IPD</b> Accommodated IPD Range: 55 - 75 mm, with continuous IPD adjustment for better visual clarity and less eye strain	<b>Tracking</b> Features 10 advanced VR/MR sensors to support 6 degrees of freedom inside-out SLAM tracking, as well as colour mixed reality and eye/face tracking	
<b>Audio</b>	Integrated speakers and microphone; also compatible with 3.5mm earphones via twin left/right jacks. Spatial audio support included.			
<b>Hardware</b>	<b>Color</b> Black		<b>Weight</b> 722 g with premium counter-balanced ergonomic design	
<b>Charging</b>	45W USB-C power adapter	2M charging cable		
<b>Controllers</b>	<b>Dimensions</b> 130 x 70 x 62mm	<b>Weight</b> 153g (per controller)	<b>Processor</b> Qualcomm Snapdragon 662 mobile processor per controller	<b>Controller Tracking</b> SLAM with 3 camera sensors per controller
