ABOUT THE HEADSET

HTC VIVE Flow immersive VR glasses are specially designed for well-being and productivity. Compact and lightweight, they can travel with you wherever you go. Very easy to use, simply connect them to your smartphone via Bluetooth 5.0 or WiFi and use a separate power source.

WHAT'S INSIDE THE BOX

- ✕ VIVE Flow VR glasses
- ✕ Face cushion (installed)
- ✕ USB type C cable
- ✕ Microfiber pouch
- ✕ Nose support (used only when adjusting diopter wheel)

PROFESSIONAL USE

The VIVE Flow is perfectly suited to light B2B uses such as immersive training, learning and education, immersive showrooms and remote collaboration.

PURE COMFORT

Easy to install and remove, the VIVE Flow adapts to all head shapes. Its adjustable dioptic lenses enable myopic people to dispense with their glasses.

KIOSK MODE

Lock your VIVE Flow so that it can be used as a fixed-use device, preventing inadvertent tampering. Ideal for training, product launches or on-site experiments.

PREFERRED USES

- + Training
- + Therapy
- + Learning/Education
- + Tourism
- + Entertainment

INO-VR PRODUCT COMPATIBILITY

- ✕ Smart'Case One
- ✕ Smart'Case Multi
