ABOUT THE HEADSET

The Lenovo ThinkReality VRX headset is an all-in-one 6DoF headset specially designed for professionals. It features high-resolution Passthrough technology for mixed reality applications, is easily cleanable, reliable and durable, and supports VR and MR content. Its pancake lenses and rear battery provide optimum comfort and balance for extended virtual sessions.

WHAT'S INSIDE THE BOX

- ✂️ Lenovo VRX headset
- ✂️ 2x controllers with AA batteries
- ✂️ USB cable (A-C) 1m
- ✂️ Narrow face cushion
- ✂️ Top strap

- ✂️ Safety and warranty guide

FLEXIBILITY OF USE

The ThinkReality VRX is both a standalone headset with integrated content and a headset that can be connected wirelessly or by cable to a PC or workstation, giving you great flexibility of use.

PROFESSIONAL USE

Thanks to its 6DoF features and high-resolution color Passthrough technology, the ThinkReality VRX offers long-lasting immersion for a wide range of professional applications.

GREATER COMFORT

Enjoy optimum comfort during your virtual sessions thanks to its slim design and high-resolution pancake lenses. The high-capacity battery, located at the rear, ensures low weight and perfect balance.
