SHIFT CASE by **INO** VR

QUICK-START GUIDE

PICO VERSION
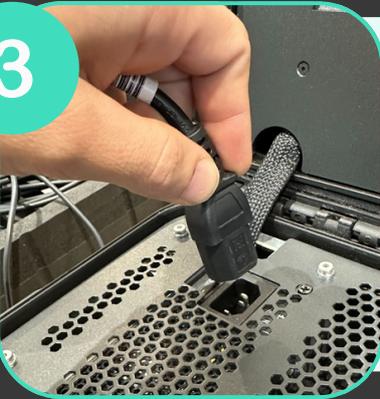

2-MINUTE SETUP

INO VR

1 Open your case by activating the locking system

2 Once the case is open, remove the wireless keyboard from its slot, then remove the headset and controllers from the foam
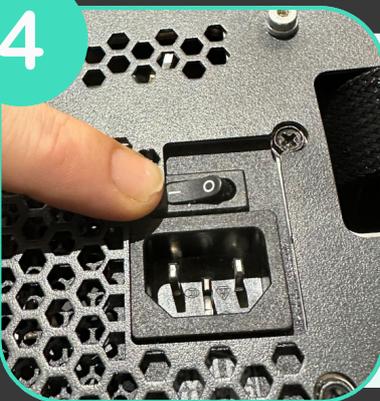

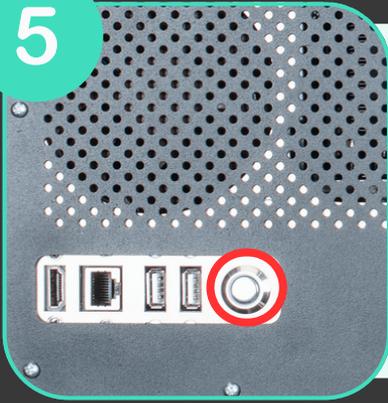

3 Connect the power supply to an electrical socket

4 Make sure the power supply is in the "ON" position

INO VR

5

Press the power button on the front of the case (the button lights up when the computer starts)

6

Make sure that the router (included as an option) is plugged in and that the "ON" position is engaged.

YOUR CASE IS READY, TIME TO START YOUR HEADSET

INO VR

1

Lift the small cover with the letter "D" and connect the USB-C cable to your headset

2

Screw the USB-C port onto the device using the small screwdriver supplied in the box

3

Attach the cable clamp to the side headband of the appliance
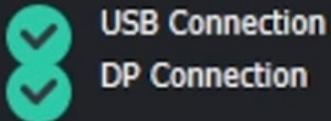

INO VR

4 Plug the DisplayPort and USB-A sockets into the dedicated ports on your computer
